

# TL28 series

### Product Segments

## • Ergo Motion

TiMOTION's TL28 series lifting columns are specifically designed for use in ergonomic desks and work tables. Using multiple TL series lifting columns with compatible TC series control boxes and TH/TDH series controls, work surfaces can be controlled quietly and smoothly with synchronous movement. All Ergo Motion TC series control boxes have a less than 0.1W standby power option that reduces power consumption. Our wide range of columns offers customers the solutions they require to satisfy their project requirements. The TL28 has a two stage telescopic outer tube that is designed for a wide-top, narrow-bottom square appearance. One single TL28 can lift maximum 80KG. Various powder coating is available.

### **General Features**

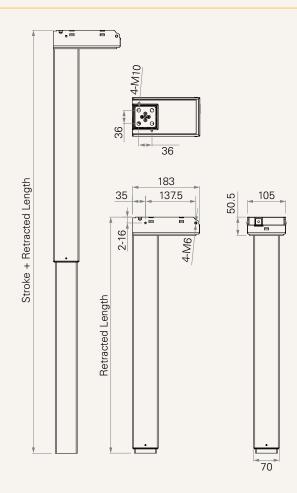

| Max. load               |  |  |  |  |  |
|-------------------------|--|--|--|--|--|
| Max. speed at max. load |  |  |  |  |  |
| Max. speed at no load   |  |  |  |  |  |
| Retracted length        |  |  |  |  |  |
| Dimension of outer tube |  |  |  |  |  |
| Stroke                  |  |  |  |  |  |

800N (push) 28mm/s 46mm/s 645mm 2-stage, 70\*70mm square, upside down 500mm

| Α          | 800              | 800          | 2.5                 | 5.0                 | 46.0                 | 28.0                |

### Note

1 This self-locking force level is reached only when a short circuit is applied on the terminals of the motor. All the TiMOTION control boxes have this feature built-in.

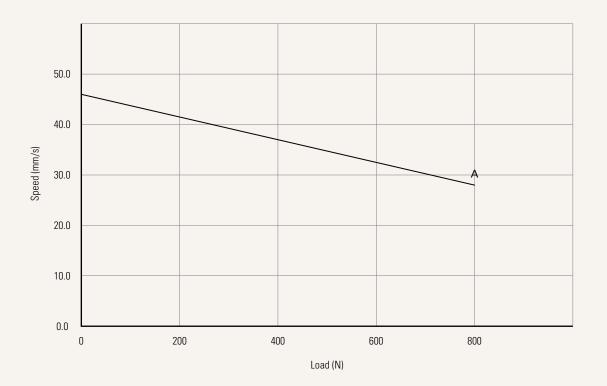

2 Parameters above are from tested average, please refer to approval drawing for final value.

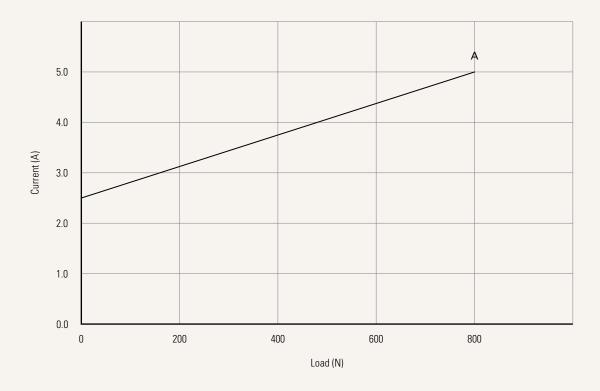

### Performance Data (24V DC Motor)

Motor Speed (5200RPM)

Speed vs. Load

### Note

1 The performance data in the curve charts shows theoretical value.

# TL28 Ordering Key

| TL28 |                                   |  |                    | Version: 20180525-A  |  |  |
