Collision Sensor

TCS1
series

ttouch

Product Segments

- **Ergo Motion**
- **Industrial Motion**

TCS1 is a collision sensor based on t-touch technology which can be integrated easily into the control system and does not require any additional hardware upgrades. When paired with the TiMOTION control system, TCS1 allows for three axis collision detection. This sensor provides enhanced safety to your electric height adjustable desk or system to help prevent user injury or equipment damage.
General Features

Hardware based solution
Enhanced collision detection
Prolonged product life
Add-on accessory - upgrade protection at anytime
Allows for linking of multiple TCS1's for complex work surface designs
